IDEARESTYLE

Description

Idea Restyle now has a more elegant and modern dress, tailored with the best finishing and premium materials, just as it deserved. The new, narrow-sided, customizable design transforms Idea Restyle into a pretty and versatile professional machine, appropriate in all environments, be they classic, modern or vintage.

But that was not enough.

We employed all of Saeco's technology and experience to make Idea even more modern and easy to use, thanks to the new, intuitive, fully equipped and beautifully finished interface.

The high performance offered by Idea Restyle, the removable and washable brewing unit, the high capacity of the coffee container, 2.1 kg, and of the grounds drawer, the possibility to brew coffee and dispense milk, hot water and steam all at the same time make the new Idea a veritable top player in the market.

Main characteristics

- Easy one-touch beverage selection and machine programming
- Simultaneous production of coffee/milk, hot water and steam
- Possibility to dispense first milk then coffee or first coffee then milk or simultaneously (High Speed Cappuccino)
- Possibility to program the coffee container to be used for each beverage
